

Oral Radiology Course

241 MDS

Physics of Diagnostic Radiology

Credit: 4Hours

Course description:

An introduction to dental radiology as a branch of dentistry for diagnostic, treatment planning and following-up purposes. Complete examination of the oral cavity needs both clinical and radiographic investigations, therefore this course of dental radiology offers the way of examining the hidden parts of teeth and their supporting structures. This course is considered as an introductory course that includes lectures, demonstrations and practical applications on the previously given lectures. It is consisted of a series of weekly lectures and practical's extending over two terms.

Course Director: Dr. Hazem Marzouk[DUC] and Dr. Asma'a Al-Ekrish[MUC]

342 MDS

Oral & Maxillofacial Radiology II

Credit: 4Hours

Course Description

This is the second course of oral radiology which is comprehensive course in radiographic interpretation and differential diagnosis of developmental, pathological lesions and fractures of the jaws and associated structures. The course is covered by the lectures in the first half of the year and practical & tutorials in the second half.

The lectures in the first half will encourage the student to participate in tutorials of the second half.

Course Director: Dr. Ra'ed Al Sadhan [DUC] & Dr. Wafaa Al Faleh [MUC]
